For the Safety of our Animals

The Oregon Zoo does not allow balloons, balls, Frisbees or anything that is meant to be tossed, thrown or might land in an animal habitat.

Also prohibited are noise makers that disrupt the sleep patterns of our animals, such as air horns, whistles, clappers, clackers, cowbells, etc. Please contact your event coordinator if you have any questions.

Events like these directly support the Oregon Zoo and its mission to inspire the community to respect animals and take action on behalf of the natural world. We do this by creating engaging experiences and advancing the highest level of animal welfare, environmental literacy and conservation science. Thank you!
